

Junior Game Designer

Job Title: Junior Game Designer

Company: Leco Studio

Location: HCMC, Vietnam

Type: Full-time

About Leco Studio:

Leco Studio is a game development studio focused on creating immersive gaming experiences on Roblox.

Job Description:

We are seeking passion and experienced Junior Game Designer to join our team. As a Junior Game Designer, you will play a pivotal role in shaping the creative direction and success of our upcoming Roblox games. You will collaborate with a talented team of developers to create innovative and engaging game experiences.

Key Responsibilities:

- Design games for a variety of demographics complete with comprehensive design-document.
- Proficient with algorithm driven game design (good at math).
- Can deliver game design experience effectively to the rest of the team through paper prototyping.
- Quickly iterate and balance games using analytics and data collected from players.
- Collaborate with other developers (programmers, artists, etc.)
- Test and refine games based on feedback
- Build games using Roblox Studio

Qualifications:

- Highly creative and detail oriented.
- Meticulous with numbers and documentation.
- Building engaging experiences.

Requirements:

- Language (Spoken): English
- Experience with user-generated content
- Knowledge of monetization strategies
- Analytical thinking and collaborative mindset

Bonus:

- Game design principles (level design, game mechanics, player psychology)
- Proficiency in Roblox Studio and Lua scripting
- 3D modeling and animation
- Communication and collaboration
- Problem-solving and debugging
- Creativity
- Time management and organization

Benefits

- Competitive salary and benefits package.
- Opportunities for professional growth and development.
- A collaborative and supportive work environment.
- The chance to work on exciting and innovative game projects

Location and Working Hour:

- Location: 71 Bui Ta Han, An Phu, Thu Duc City.
- Working hour: 9h - 17h30 on Monday - Friday
